SERVICE EXCELLENCE

Why our clients trust us: Safe – Our technicians are highly qualified and certified, following strict safety protocols to ensure secure operations. Cost-effective – Rope access minimizes setup time, reduces personnel needs, and ensures faster project completion. Versatile – Our professionals apply a wide range of skills across various environments, from high-rise buildings to complex industrial facilities. Efficient and quick – Our systems are installed and dismantled swiftly, minimizing downtime and disruption. Environmentally friendly – Our methods have minimal environmental impact compared to traditional access techniques. Minimal disruption – We ensure minimal interference with your daily operations, allowing for smooth, uninterrupted workflows.

Recent Key Projects

Department of Labour – Corporate Sector

The Department of Labour Headquarters required a complete exterior facelift, including high-rise cleaning, repainting, and glass panel replacement. Our rope access technicians efficiently removed years of dirt, dust, and weather damage while ensuring the structural glass panels were safely replaced at height. The project was completed with minimal disruption to daily operations.

Triliun Residences – Apartment

For Triliun Residences, a luxury high-rise apartment complex, we carried out specialized crack repairs on external walls, applied high-quality exterior paints, and implemented waterproofing treatments to protect the structure from moisture damage. Our team ensured seamless execution while preserving the building's premium aesthetic appeal.

Hilton Colombo - Leasure

One of Sri Lanka's most iconic hotels, Hilton Colombo, required an extensive high-pressure washing project to restore its façade. Years of pollution and environmental exposure had left stains on the building's exterior. Our rope access professionals successfully cleaned and rejuvenated the surfaces, bringing back the building's pristine look while ensuring zero damage to the structure.

Ancel Lanka - Industrial

As a leading glove manufacturer, Ancel Lanka required painting, rust-proofing, and maintenance of high-access areas within their production facility. Our rope access team executed the project with precision, ensuring an uninterrupted workflow for the factory.

Hydramani Garments - Apparel

A large-scale garment manufacturer, Hydramani Garments, needed comprehensive painting and waterproofing for their production buildings. Ropeway Access provided long-lasting protective coatings to safeguard infrastructure from environmental damage.

At Ropeway Access Pvt Ltd, we specialize in providing **high-rise maintenance, repair, and installation services** across multiple industries. Our expert rope access technicians ensure efficiency, safety, and cost-effectiveness in even the
